The organisations **Lithuanian Sporto Universitetas** (Lithuania), **KEFI Athinon** (Greece) excused their absence, while the organisation **Svenka Ungdom League** (Sweden) indicated that they do not want to participate in the project as they are involved in different projects and cannot attend their participation in the sport event.

### 3. Comments on the sessions

A brief discussion of each session is given below:

1. Welcome speech: The project leaders José María López Gullón and Arturo Díaz Suárez welcome all the attendees, making a presentation of the project and its objectives and the future collaboration of the organisations through their participation in the sport event.
2. Short presentations: The different organisations made a presentation of their organisations, their activities and their work in Europe between 5 and 10 minutes long. Salvador Angosto moderated the participation of the organisations according to the order established in the initial agenda.
3. Project structure and work packages: Salvador Angosto gave a brief presentation of the general information on the project, objectives, audience groups, activities and work programme. He then went into more detail on the structure of each work package of the project.
4. International congress/Workshop: Guillermo Felipe López Sánchez gave a brief presentation of the structure of the congress and the workshops that comprise it to the attendees and the initial proposal of different presentations and workshops.
5. Project budget and financial issues: María Ángeles Martínez Cegarra, technician in charge of the UMU project, gave a presentation on administrative, management and financial issues. The role of the organisations as associate members of the consortium, which was not entitled to a grant according to the Erasmus+ programme regulations, was highlighted and it was urged that the beneficiary would be responsible with the budget to cover all costs associated with the travel, accommodation and meals of the delegations during their attendance and participation in the programme activities.

6. **Open discussion:** Once the presentations were finished, a space was opened to resolve questions and doubts from the organisations. The following questions were asked:

a) Petra Thaller (OAC) commented that it was discriminatory to talk about women as a target group and not about families, as there are cultures such as the Moroccan one where women are in the background and parents often do not allow girls to participate freely if they are not there watching over them.

**Response:** It was indicated that the intention of the University of Murcia is to promote female participation in sport as there are certain cultures, such as the Moroccan one, where women are left in the background and the intention of the project is to promote the participation of ethnic minorities together with the importance of physical activity for people with cancer and physical activity in the family.

b) Rui Vieira (SEA) asked about gender equality in the event delegations.

**Response:** He was advised that delegations should be composed of 50% men and 50% women.

c) Enes Dermitas (Spor Istanbul) asked about the number of people and volunteers that could be taken.

**Response:** It was indicated that initially the delegations will consist of 11-12 members according to the initial budget. It was also stated that depending on the budget adjustments that may occur, we will try to bring as many members as possible from each delegation.

d) Rui Vieria (SEA) asked about information sharing and what costs "subsistence" referred to.

**Response:** It was noted that a folder would be created on Google Drive to share all the information. Subsistence costs were specified to be meals.
