

Print & Play **DALI LIFE**

Preparation

Ensure that you have access to a high-quality printer and paper of the appropriate thickness to print the cards. We recommend you use A4 paper, cardstock, or photographic paper of 80gsm or more.

Print the Cards

Print the cards onto A4 paper, ensuring that you select the option to print at actual size, or no scaling. This guarantees that the cards will be printed at the correct dimensions. If your printer has the option to print double-sided, you can select this to print both the front and back of the cards onto a single page. If you do not use this option, you will need to print the face and back of the cards separately.

Cutting the Cards

Once your printed cards are dry, use a ruler and a cutter, or a guillotine to cut the cards out. Make sure to follow the cutting lines indicated within the PDF file and cut as accurately as possible to create cards of uniform size. If you prefer your cards to have rounded edges, you can then use a rounded corner cutter to give them a more professional finish.

Sleeving the Cards (Optional)

Once you have cut out your cards, you may place them into transparent protective sleeves of standard playing card size. If you have printed your card double-sided, place one card into a single sleeve. If you have printed the front and rear of your cards separately, you will need to match the front of each card with the corresponding card back before placing into the sleeve.

Game Board

The game board consists of two separate parts, one each on a page of A4 paper. You will need to use adhesive tape to join the two parts together in order to prevent them moving. This makes it easy to fold the board in half when storing it.

Game Instructions

You may print the instructions onto a sheet of A4 paper for use as reference when playing the game if you wish. However, we advise you read them in digital format to help protect the environment.

Tokens

Print the tokens double-sided if possible, and cut along the marks provided. If you wish to, you may glue the tokens to cardboard to make them stronger.

DAI Data Literacy for Citizenship

The DALI Board Game

Instructions

This project has received funding from the European Commission within Erasmus+ programme "Erasmus+ KA204 – Strategic Partnerships for adult education (Data Literacy for Citizenship)" (Project Number: 2020-1-AN-DL-KA204-076492). The European Commission does not constitute an endorsement of the content which reflects the views only of the authors, and the Commission cannot be held responsible for any use which may be made of the information contained herein.

Dali Life Rules

Objective of the Game

Be the first player to traverse the game board and reach the finishing circle.

Before Playing

Before playing the game, players should shuffle both the Action cards and the Event cards into separate piles. The Event cards should be placed to create a draw pile somewhere convenient. Each player is dealt 5 cards from the Action card pile, the remaining Action cards should then be placed to form a draw pile separate from the Event cards. Each player then rolls 1x 6-sided dice (1d6). The player with the highest dice roll will take the first turn. If two or more players roll the highest number, those players should continue to re-roll until a winner is determined. All player tokens should be placed onto the board within the circle marked 'START'.

1. Move Phase

The first player rolls 1d6 and moves their token the number of places shown on the dice. If the board shows alternative routes are possible, the player may decide which route to take.

2. Event Phase

If a player lands on a space marked with the 'Event' icon, three fanned cards, the player must draw an event card and read its contents aloud. Event cards can have either a negative or positive effect on the player or their opponents and can only be blocked by specific action cards. Once an Event card has been used, it should be placed into the discard pile.

3. Action Phase

Once any events have played out, the player may play up to 3 Action cards, should they wish to. Any Action cards played out of this sequence, to counter Event cards for example, do not count towards this number.

Players who are targeted by Action cards may counter their effects by playing their own Action cards if able to. Once an Action card has been used, it should be placed into the discard pile.

4. Draw Phase

Once the Action phase is complete, the player ends their turn by replenishing their hand, up to a maximum of 5 cards, from the Action card draw pile. If the player holds more than 5 cards at this point, they must discard cards at random, placing them into the Action card discard pile, until they only hold the maximum of 5.

5. Next Player

Once the Draw phase is complete, the sequence begins again, starting with the draw phase, with the next player to the left.

6. Winning the Game

The winner of the game is the first person to reach the circle marked 'FINISH'.

Adapting Play Time

The amount of time taken to complete the game can be adapted based upon the number of 6-sided dice (d6) rolled per turn by the players. The following are approximate estimations of playing time, however, these will be affected by other factors such as player age, player inquisitiveness, and player understanding.

- 1d6 – 1 Hour +
- 2d6 – 1 Hour
- 3d6 – 45 Minutes – 1 Hour
- 4d6 – 30-45 Minutes

Event Cards

When a player lands on a tile containing the Event icon, they draw an Event card, read its contents aloud, and follow its instructions. Event cards are placed into their own discard pile. If you run out of Event cards, shuffle the discard pile to create a new draw pile.

Action Cards

Players can play up to 3 Action cards during their turn. Used Action cards are discarded into a pile. At the end of the turn, the player refills their hand up to a maximum of 5 cards. If you run out of Action cards, shuffle the discard pile to create a new draw pile.
