

1 **Table 1.** Prevalence and mean intensity (number of larvae per parasitized host) values obtained in different studies on oestrosis (caused by *Oestrus ovis*)
2 affecting domestic and wild hosts in Spain.

3

4	Host species	Geographical location	Mean prevalence (%)	Mean number of larvae	Reference
5		within the Iberian Peninsula		per parasitized host	
6	<hr/>				
7	<i>Capra hircus</i>	Central Spain	34.9	3.9	Alcaide et al. (2005)
8	<i>Ovis aries</i>	Southwest Spain	71.1	18.5	Alcaide et al. (2003)
9	<i>Ovis aries</i>	Northeast Spain	70.0	15.8	Gracia et al. (2006)
10	<i>Ovis aries</i>	Balearic Islands	84.0	10.7	Paredes-Esquivel et al. (2009)
11	<i>Ovis gmelini musimon</i>	South Spain	47.0	9.6	Moreno et al. (1999)
