

Histology and Histopathology

Cellular and Molecular Biology

R-460

Volume 23, 2008

<http://www.hh.um.es>

Number 1 (January)

Articles

S. Sivillia, M. Paradisi, G. D'Intino, M. Fernandez, S. Pironi, L. Lorenzini and L. Calzà: Skin homeostasis during inflammation: a role for nerve growth factor 1-10

M. Lombardero, K. Kovacs, E. Horvath, B.W. Scheithauer, F. Rotondo, F. Salehi and R.V. Lloyd: Adrenomedullin expression in pituitary adenomas and nontumoral adenohypophyses 11-17

L. Pieri, B. Rinaldi, L. Domenici, S. Bacchi, A. Filippelli, A. Capuano, F. Rossi and P. Romagnoli: Blood-borne cells involved in arterial repair upon experimental incision injury 19-32

I. Zudaire, M.D. Lozano, M.F. Vazquez, M.J. Pajares, J. Agorreta, R. Pio, J.J. Zulueta, D.F. Yankelevitz, C.I. Henschke and L.M. Montuenga: Molecular characterization of small peripheral lung tumors based on the analysis of fine needle aspirates 33-40

Y. Ji, J. Fan, J. Zhou, B.S. Wang, H.B. Liu, Z.W. Wu and Y.S. Tan: Intraductal papillary neoplasms of bile duct. A distinct entity like its counterpart in pancreas 41-50

S.M. Yu, K.H. Lin and Y.L. Lai: Protein markers in the microcyst of the posteroventral cochlear nucleus of the gerbil 51-56

K. Raghay, T. García-Caballero, S. Bravo, C.V. Álvarez, R. González, C. Diéguez, A. Beiras, M. Fraga and R. Gallego: Ghrelin localization in the medulla of rat and human adrenal gland and in pheochromocytomas 57-65

D.R. Howlett, K. Bowler, P.E. Soden, D. Riddell, J.B. Davis, J.C. Richardson, S.A. Burbidge, M.I. Gonzalez, E.A. Irving, A. Lawman, G. Miglio, E.L. Dawson, E.R. Howlett and I. Hussain: A β deposition and related pathology in an APP x PS1 transgenic mouse model of Alzheimer's disease 67-76

I. Conde, R. Paniagua, B. Fraile, J. Lucio and M.I. Arenas: Glucocorticoid receptor changes its cellular location with breast cancer development 77-85

M. Hampel, J.B. Ortiz-Delgado, C. Sarasquete and J. Blasco: Effects of sediment sorbed linear alkylbenzene sulphonate on juveniles of the Senegal sole, *Solea senegalensis*: Toxicity and histological indicators 87-100

Reviews

V. Milacic, D. Fregona and Q.P. Dou: Gold complexes as prospective metal-based anticancer drugs 101-108

S.A. Boikos and C.A. Stratakis: Molecular mechanisms of medullary thyroid carcinoma: current approaches in diagnosis and treatment 109-116

D. Kotilgim, A.J.F. Lazar, R.E. Pollock and D. Lev: Desmoid tumor: a disease opportune for molecular insights 117-126

Number 2 (February)

Articles

A. Yamashita, K. Shoji, T. Tsuruda, E. Furukoji, M. Takahashi, K. Nishihira, S. Tamura and Y. Asada: Medial and adventitial macrophages are associated with expansive atherosclerotic remodeling in rabbit femoral artery 127-136

Y. Ohtsuki, A. Yamanaka, H. Ohyama, E. Yamada, N. Terada, J. Fujita, G-H. Lee and M. Furihata: Histochemical demonstration of aluminum and iron deposition in pulmonary bony tissues in three cases of diffuse pulmonary ossification 137-141

O. Ichii, A. Yabuki, T. Ojima, M. Matsumoto, K. Taniguchi and S. Suzuki: Immunohistochemical localization of renin, NO synthase-1, and cyclooxygenase-2 in rodent kidney 143-150

S.M.L.C. Mendis-Handagama and H.B.S. Ariyaratne: Effects of hypothyroidism on anti-mullerian hormone expression in the prepubertal rat testis 151-156

T. Nishimura, H. Hirata, M. Tsujii, R. Iida, Y. Hoki, T. Iino, S. Ogawa and A. Uchida: Pathomechanism of entrapment neuropathy in diabetic and nondiabetic rats reared in wire cages 157-166

B. Dvořánková, L. Lacina, K. Smetana Jr., M. Lensch, J.C. Manning, S. André and H.-J. Gabius: Human galectin-2: nuclear presence *in vitro* and its modulation by quiescence/stress factors 167-178

G. Pascual, C. Mendieta, R.P. Mecham, P. Sommer, J.M. Bellón and J. Buján: Down-regulation of lysyl oxidase-like in aging and venous insufficiency 179-186

E. Ioachim: Thymidine phosphorylase expression in breast cancer: the prognostic significance and its association with other angiogenesis related proteins and extracellular matrix components 187-196

D. Bjur, P. Danielson, H. Alfredson and S. Forsgren: Immunohistochemical and *in situ* hybridization observations favor a local catecholamine production in the human Achilles tendon 197-208

M. García-Cosío, A. Santón, P. Martín, M.E. Reguero, E. Cristóbal and C. Bellas: Analysis of Epstein-Barr virus strains and variants in classical Hodgkin's lymphoma by laser microdissection 209-217

Reviews

M. Laszczyńska, A. Brodowska, A. Starczewski, M. Masiuk and J. Brodowski: Human postmenopausal ovary – hormonally inactive fibrous connective tissue or more? 219-226

R. Hildenbrand, M. Gandhari, P. Stroebel, A. Marx, H. Allgayer and N. Arens: The urokinase-system – role of cell proliferation and apoptosis 227-236

B. Martin, E. Golden, A. Keselman, M. Stone, M.P. Mattson, J.M. Egan and S. Maudsley: Therapeutic perspectives for the treatment of Huntington's disease: Treating the whole body 237-250

Number 3 (March)

Articles

C. Lucini, L. Maruccio, M. Patrino, S. Tafuri, N. Staiano, F. Mascarello and L. Castaldo: Glial cell line-derived neurotrophic factor expression in the brain of adult zebrafish (*Danio rerio*) 251-261

L.T.I. Ogido, W.R. Teodoro, A.P.P. Velosa, C.C. de Oliveira, E.R. Parra, V.L. Capelozzi and N.H. Yoshinari: Abnormal collagen deposition in synovia after collagen type V immunization in rabbits 263-269

S.-Y. Lam, G.L. Tipoe, E.C. Liong and M.-L. Fung: Differential expressions and roles of hypoxia-inducible factor-1 α , -2 α and -3 α in the rat carotid body during chronic and intermittent hypoxia 271-280

B. Zaldibar, I. Cancio and I. Marigómez: Epithelial cell renewal in the digestive gland and stomach of mussels: season, age and tidal regime related variations 281-290

E. Olszewska, M. Wagner, P. Goon, A. Shamaa, T. Upile, M. Rogowski, L. Steinstaesser and H.H. Sudhoff: Melanocyte localization and distribution in human cholesteatoma 291-296

E. Sawanobori, N. Terada, Y. Fujii, K. Higashida, S. Nakazawa and S. Ohno: Ultrastructural study of human glomerular capillary loops with IgA nephropathy using quick-freezing and deep-etching method 297-307

N. Gennet, C. Herden, V.J. Bubb, J.P. Quinn and A. Kipar: Expression of activity-dependent neuroprotective protein in the brain of adult rats 309-317

C. Loreto, V. Rapisarda, M.L. Carnazza, G. Musumeci, M. Valentino, C. Fenga and G. Martinez: Fluoro-edenite fibres induce lung cell apoptosis: an *in vivo* study 319-326

A. Bonacchi, M.L. Taddei, I. Petrai, E. Efsen, R. DeFranco, D. Nosi, M. Torcia, P. Rosini, L. Formigli, K. Rombouts, S. Zecchi, S. Milani, M. Pinzani, G. Laffi and F. Marra: Nuclear localization of TRK-A in liver cells 327-340

F. Parillo and A. Verini Supplizi: Characterization of glycoconjugates in the secretory epithelium of the equine ampulla ductus deferentis 341-349

Reviews

A. Porzionato, V. Macchi, A. Parenti, L. Maturri and R. De Caro: Peripheral chemoreceptors: postnatal development and cytochemical findings in Sudden Infant Death Syndrome 351-365

L. Lossi and G. Gambino: Apoptosis of the cerebellar neurons 367-380

F. Bonomini, S. Tengattini, A. Fabiano, R. Bianchi and R. Rezzani: Atherosclerosis and oxidative stress 381-390
