

Histology and Histopathology

Cellular and Molecular Biology

Volume 23, 2008

<http://www.hh.um.es>

Number 7 (July)

Articles

Z.-H. Chi, H. Ren, X. Wang, M. Rong, L. Huang and Z.-Y. Wang: The cellular and subcellular localization of zinc transporter 7 in the mouse spinal cord 781-787

D. Grandi, F.C. Shenton, P.L. Chazot and G. Morini: Immunolocalization of histamine H₃ receptors on endocrine cells in the rat gastrointestinal tract 789-798

Y. Yamamoto, R. Ishikawa, K. Omoe and K. Taniguchi: Expression of inwardly rectifying K⁺ channels in the carotid body of rat 799-806

R. Schneider, K. Welt, W. Aust, H. Löster and G. Fitzl: Cardiac ischemia and reperfusion in spontaneously diabetic rats with and without application of EGb 761: I. cardiomyocytes 807-817

H. Kayed, S. Bekasi, S. Keleg, T. Welsch, I. Esposito, A. Shimamura, C.W. Michalski, H. Friess and J. Kleeff: Expression of the Shwachman-Bodian-Diamond syndrome (SBDS) protein in human pancreatic cancer and chronic pancreatitis 819-826

L.-B. Jlang, X.-Q. Liu, B. Li, X.-J. He, Y.-L. Jin, L.-Q. Li, F. Gao and N.-L. Wang: Heat shock proteins and survivin: Relationship and effects on proliferation index of retinoblastoma cells .. 827-831

L. Maneva-Radicheva, U. Ebert, N. Dimoudis and G. Altankov: Fibroblast remodeling of adsorbed collagen type IV is altered in contact with cancer cells833-842

J. Szelachowska, P. Dziegiel, J. Jelen-Krzyszewska, M. Jelen, R. Tarkowski, I. Włodarska, B. Spytowska, I. Gisterek, R. Matkowski and J. Kornafel: Prognostic significance of nuclear and cytoplasmic expression of metallothioneins as related to proliferative activity in squamous cell carcinomas of oral cavity 843-851

D. Carev, M. Saraga and M. Saraga-Babic: Involvement of FGF and BMP family proteins and VEGF in early human kidney development 853-862

D. Accili, G. Menghi and M.G. Gabrielli: Lectin histochemistry for *in situ* profiling of rat colon sialoglycoconjugates 863-875

Reviews

J. Yang and W. Zhang: WWOX tumor suppressor gene 877-882

P. Yesil and E. Lammert: Islet dynamics: A glimpse at beta cell proliferation 883-895

E.J. Villablanca, V. Russo and J.R. Mora: Dendritic cell migration and lymphocyte homing imprinting 897-910

Number 8 (August)

Articles

N. Szentmáry, B. Szende and I. Süveges: P53, CD95, cathepsin and survivin pathways in Fuchs' dystrophy and pseudophakic bullous keratopathy corneas 911-916

H. Alakus, G. Grass, J.K. Hennecken, E. Bollschweiler, C. Schulte, U. Drebber, S.E. Baldus, R. Metzger, A.H. Hölscher and S.P. Mönig: Clinicopathological significance of MMP-2 and its specific inhibitor TIMP-2 in gastric cancer 917-923

G. Krohmer, N. Koleganova, P.T. Hadjicostas, B. Fink and I. Berger: Degenerative changes of the interface membrane as a possible reason for prosthesis loosening 925-933

E. Kostopoulou, A. Daponte, A. Terzis, M. Nakou, I. Chiotoglou, D. Theodosiou, C. Chatzichristodoulou, I.E. Messinis and G. Koukoulis: Fascin in ovarian epithelial tumors 935-944

G. Nemeth, S. Felszeghy, A. Kenyeres, N. Szentmáry, A. Berta, I. Süveges and L. Modis: Cell adhesion molecules in stromal corneal dystrophies 945-952

A. Saito, H. Yamauchi, Y. Ishida, Y. Ohmachi and H. Nakayama: Defect of the cerebellar vermis induced by prenatal γ -ray irradiation in radiosensitive BALB/c mice 953-964

M. Brevet, A. Ahidouch, H. Sevestre, P. Merviel, Y. El Hiani, M. Robbe and H. Ouadid-Ahidouch: Expression of K⁺ channels in normal and cancerous human breast965-972

P. Scocco and V. Pedini: Localization of influenza virus sialoreceptors in equine respiratory tract 973-978

N. Linke, N. Bódi, B.E. Resch, É. Fekete and M. Bagyánszki: Developmental pattern of three vesicular glutamate transporters in the myenteric plexus of the human fetal small intestine 979-986

E.R. Parra, J.Y. Park, D.M. Saito, T.Y. Takagaki, O.R. Rodrigues and V.L. Capelozzi: Prognostic index expression of cyclin-D1, cerbB-2 and VEGF: metastases vs corresponding primary cancers and metastatic vs non-metastatic adenocarcinomas 987-993

A. Navarro, C. Ordóñez, E. Martínez, C. Pérez, A. Astudillo and J. Tollivia: Apolipoprotein D expression absence in degenerating neurons of human central nervous system 995-1001

Reviews

N. Meng, Y. Li, H. Zhang and X-F Sun: RECK, a novel matrix metalloproteinase regulator 1003-1010

J. Castaño, V. Davalos, S. Schwartz Jr and D. Arango: EPH receptors in cancer 1011-1023

M. Beck and O. Medalia: Structural and functional insights into nucleocytoplasmic transport 1025-1033

Number 9 (September)

Articles

F. Mercati, L. Pascucci, A.M. Gargiulo, C. Dall'Aglio and P. Ceccarelli: Immunohistochemical evaluation of intermediate filament nestin in dog hair follicles 1035-1041

S. Bakaris, A. Cetinkaya, F. Ezberci and H. Ekerbicer: Expression of homeodomain protein CDX2 in colorectal adenoma and adenocarcinoma 1043-1047

J. Whyte, A. Cisneros, C. Yus, J. Obón, A. Whyte, P. Serrano, C. Pérez-Castejón and A. Vera: Development of the dynamic structure (force lines) of the middle ear ossicles in human fetuses . 1049-1060

M.D. Pérez-Cárceles, A. Sibón, M.A. Vizcaya, E. Osuna, M. Gómez-Zapata, A. Luna and F. Martínez-Díaz: Histological findings and immunohistochemical surfactant protein A (SP-A) expression in asphyxia: Its application in the diagnosis of drowning 1061-1068

S. Heebøll, M. Borre, P.D. Ottosen, C.L. Andersen, F. Mansilla, L. Dyrskjot, T.F. Ørntoft and N. Tørring: SMARCC1 expression is upregulated in prostate cancer and positively correlated with tumour recurrence and dedifferentiation 1069-1076

V. Micale, A. Di Giancamillo, C. Domeneghini, C.C. Mylonas, N. Nomikos, I.E. Papadakis and U. Muglia: Ontogeny of the digestive tract in sharpshout sea bream *Diplodus puntazzo* (Cetti, 1777) 1077-1091

A. Bonetti, M. Marchini and F. Ortolani: Immunolocalization of interleukin-1 receptor antagonist in healthy and infarcted myocardium1093-1102

L. Álvarez-Ayuso, S. García Gómez-Heras, J.R. Roda, E. Jorge, P. Calero, A. Torralba, I. Millán, H. Fernández-García and E. García-Poblete: Calcium-supplemented University of Wisconsin solution in long-term myocardial preservation 1103-1110

I. Mrakovčić-Sutić, H. Jakovac, M. Simin, D. Grebić, M. Cuk, Z. Trobonjača and B. Radošević-Stasić: Heat shock protein-GP96 as an innate sensor of damage and activator of autoreactive NKT and regulatory T cells during liver regeneration . 1111-1126

G. Bellezza, R. Colella, A. Sidoni, R. Del Sordo, I. Ferri, C. Cioccoloni and A. Cavaliere: Immunohistochemical expression of Galectin-3 and HBME-1 in granular cell tumors: a new finding 1127-1130

G. Adánez, M.T. Castells, B. García Pérez, M.T. Sánchez-Polo, A. Martín Castillo, A. Montes and I. Ayala: Effects of atorvastatin on progression-regression of renal injury in hyperlipidemic chickens 1131-1142

Reviews

A. Scoumanne and X. Chen: Protein methylation: a new mechanism of p53 tumor suppressor regulation 1143-1149

M. Vered, A. Buchner and D. Dayan: Central giant cell granuloma of the jawbones – new insights into molecular biology with clinical implications on treatment approaches 1151-1160

D.C. Corney and A.Y. Nikitin: MicroRNA and ovarian cancer 1161-1169
